First Steps

Add new vehicles-web

1. Sign in to the urbanique (<https://app.urbanique.com/login.php>) with your chosen email and password
2. On the menu, on the left, click 'Vehicles'
3. Click '+' on the right side

4. On this screen, you can add your fleet's vehicles:

Add new vehicle

KÖTELEZŐ GÉPJÁRMŰ ADATOK

Number plate

Make

Model

Year

Version

Ownership

CONTINUE **CANCEL**

1 2 3

After filling all the details and clicking on the SAVE button, your first vehicle has already been saved!

Invitation of drivers

1. Purchase of subscriptions

a. Fleet-level subscription

Do you have a fleet of 5 people? We recommend you buy 6 subscriptions right from the start. No, not a typo! If you, as a manager, want to keep track of your fleet of 5: $5+1 = 6$ subscriptions are recommended

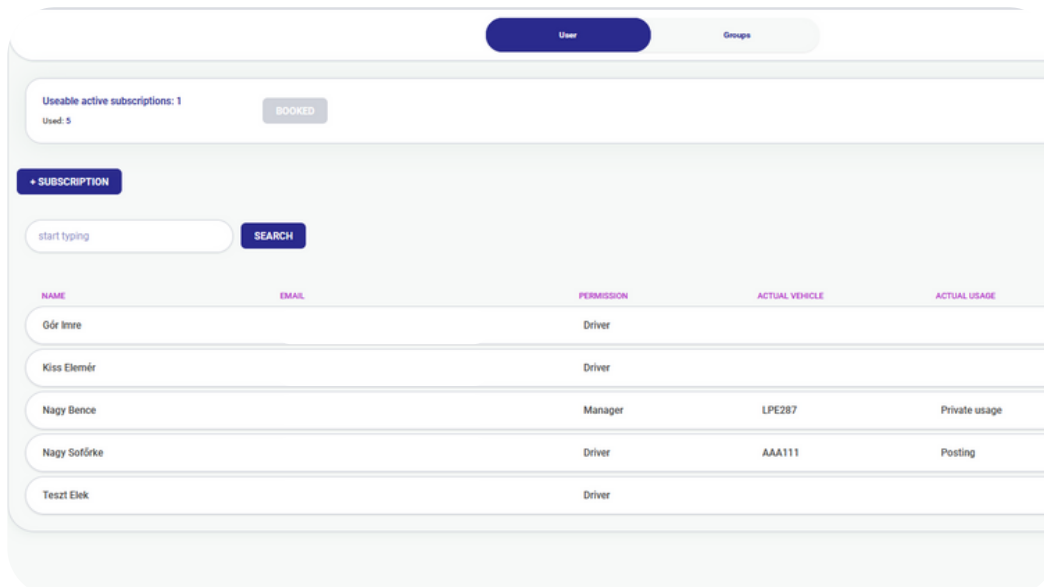

b. Test it

Want to start small? No problem! Try it out by buying up to 2-3 subscriptions.

Whichever option you choose, you will need to go through the following steps:

Click on the 'Users' menu on the left:

At the top you can see how many subscriptions you have, for each "free" seat you have the possibility to invite a new driver.

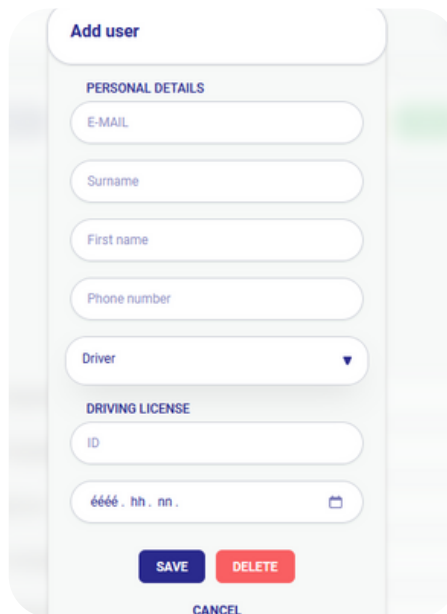

The screenshot shows the 'User' management interface. At the top, there are tabs for 'User' and 'Groups'. Below the tabs, it displays 'Useable active subscriptions: 1' and 'Used: 5'. A 'BOOKED' button is visible. A '+ SUBSCRIPTION' button is also present. Below this is a search bar with the placeholder 'start typing' and a 'SEARCH' button. The main content is a table with the following columns: NAME, EMAIL, PERMISSION, ACTUAL VEHICLE, and ACTUAL USAGE.

NAME	EMAIL	PERMISSION	ACTUAL VEHICLE	ACTUAL USAGE
Gór Imre		Driver		
Kiss Elemér		Driver		
Nagy Bence		Manager	LPE287	Private usage
Nagy Sofőrke		Driver	AAA111	Posting
Teszt Elek		Driver		

2. Invite users

Want to add more drivers to the available seats?
Click the + sign in the top right corner.
Here you need to fill in the following information:

Add user

PERSONAL DETAILS

E-MAIL

First name

Phone number

Driver ▼

DRIVING LICENSE

ID

éééé . hh . nn . 📅

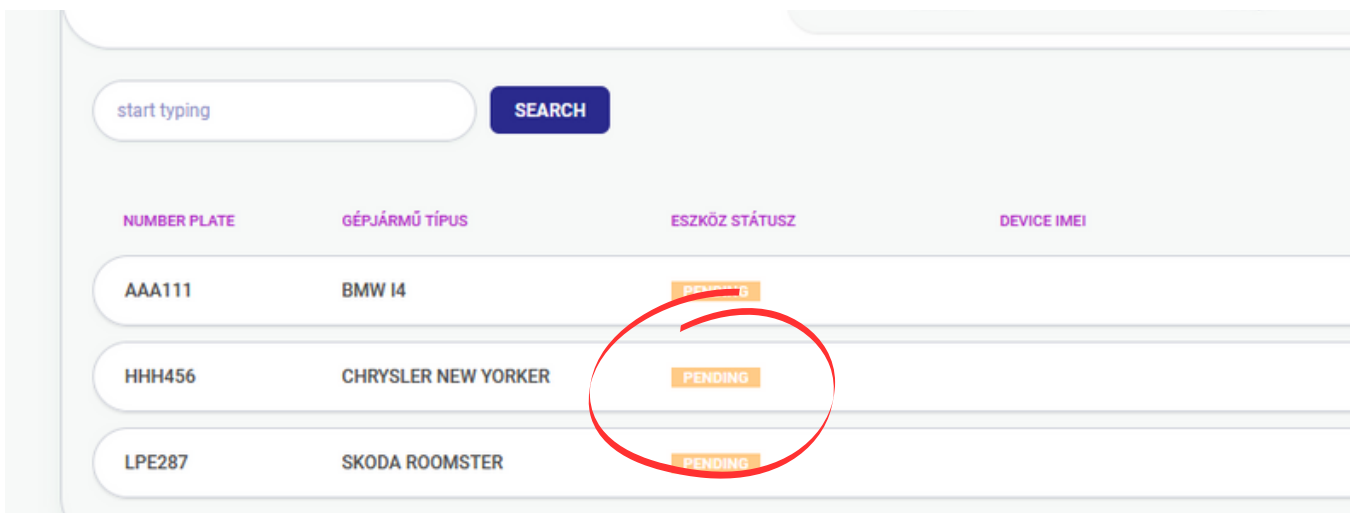

SAVE DELETE CANCEL

An invitation will be sent to the driver by email, and by clicking on the Register button, all you have to do is create a password, which you can use to access the urbanique application!

Pairing OBD with vehicle

Once all the vehicle and driver data are loaded into the system, all you have to do is assign the on-board device and driver to the vehicle. You can do this by following the steps below:

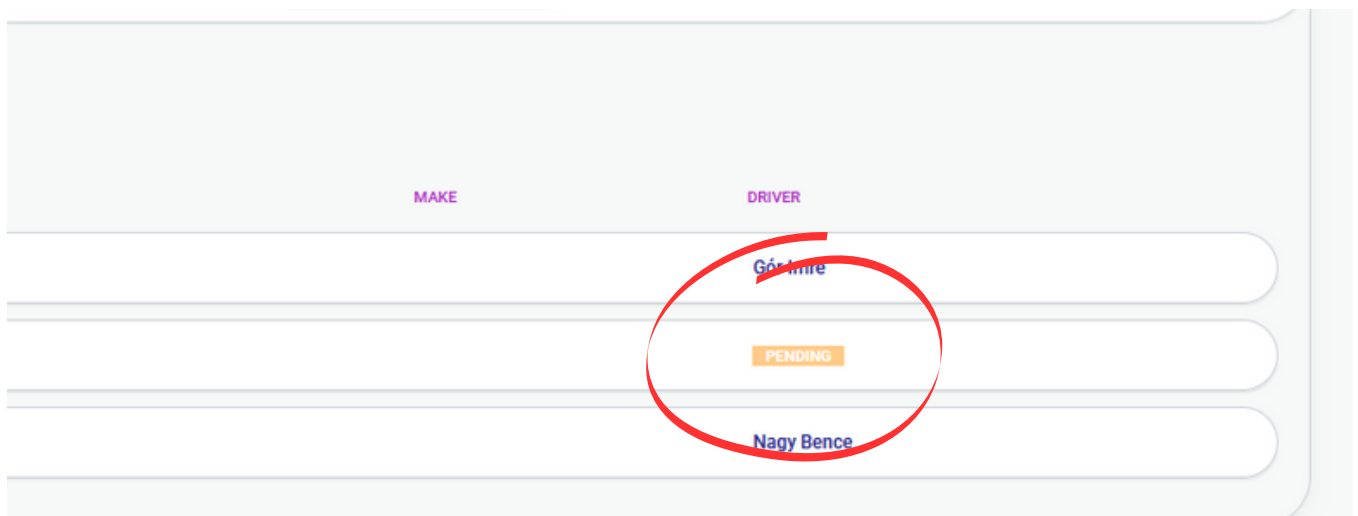

1. You can find the list of purchased assets by logging on to <https://app.urbanique.com> and going to the 'Vehicles' submenu under 'Pairing'
2. As soon as you receive the ordered devices, please check that the identifiers shown here match the identifiers on the device
3. You can connect the device to your vehicle via an OBD port
4. If the installation is successful: the device will light up after ignition
5. You must also repeat the pairing of the vehicle and OBD online. Return to point 1. Click on the device status and select which device you have installed in which vehicle.

NUMBER PLATE	GÉPJÁRMŰ TÍPUS	ESZKÖZ STÁTUSZ	DEVICE IMEI
AAA111	BMW I4	PENDING	
HHH456	CHRYSLER NEW YORKER	PENDING	
LPE287	SKODA ROOMSTER	PENDING	

Vehicle pairing with driver

1. Once you have paired the device with the vehicle, you can also assign a driver to the vehicle: click on the driver in the row of the selected vehicle and select which driver will be driving the selected vehicle on the given day!
2. Attention! If no one is driving a vehicle, remember to separate vehicles from drivers!

MAKE	DRIVER
	Górnire
	PENDING
	Nagy Bence

ATTENTION!

If you have opted for on-board data collection, please **DO NOT DOWNLOAD** the app to your drivers' phones!

Vehicle pairing with driver-Mobile App

To collect data on your mobile, download our app from Google Play or the App Store. Remember, the basis for tracking drivers:

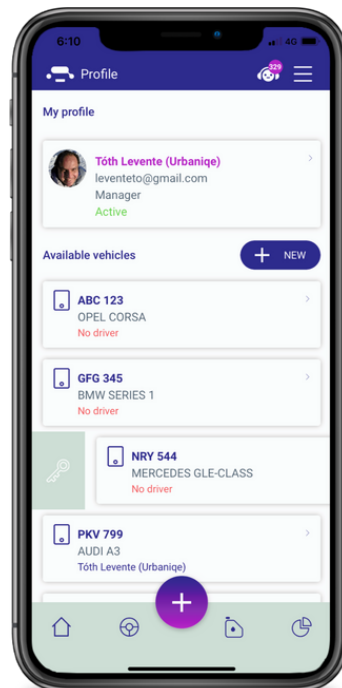

- urbanique app running on every driver's smartphone
- mobile internet on
- GPS on

Once downloaded, the driver can access the app with an email address and password.

In the 'Profile' menu of the app, the driver can assign a vehicle by swiping the vehicle to the right.

Then all the driver has to do is start driving and the app will automatically measure the distance travelled.

Fleet management Database

Vehicle data

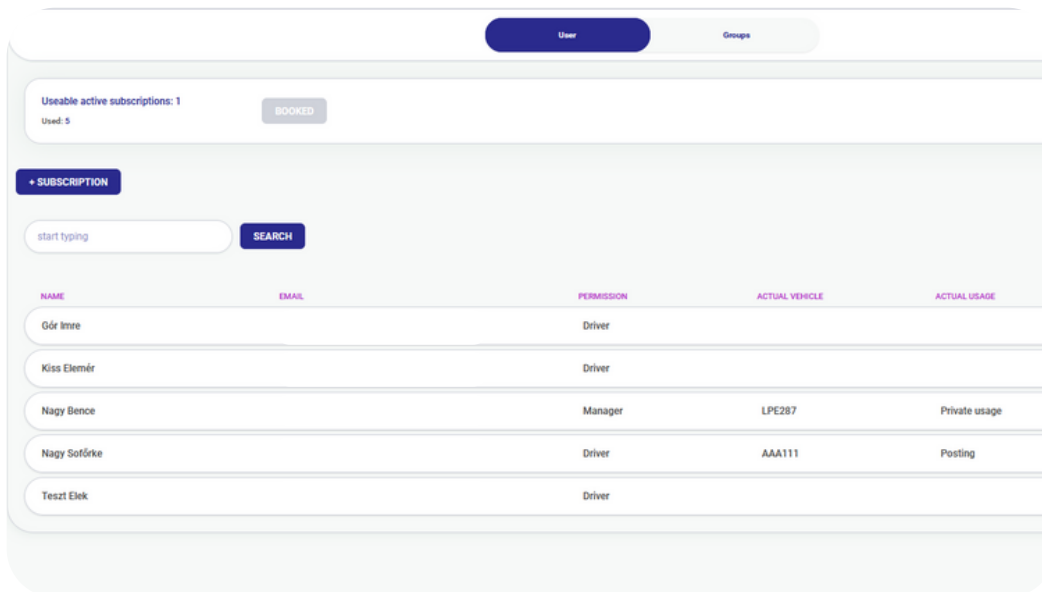

1. You can access your list of registered vehicles from the 'Vehicles' menu.

2. Do you want to change or delete your vehicle details? Do you want to add a toll sticker or last service date for a specific vehicle?
Just click on any vehicle in the list above!

User data

1. You can access the list of drivers in your fleet from the Users menu in the left menu.

The screenshot displays the 'User' management page in the UrbanIQ system. At the top, there are tabs for 'User' and 'Groups'. Below the tabs, a summary section shows 'Useable active subscriptions: 1' and 'Used: 5', along with a 'BOOKED' button. A '+ SUBSCRIPTION' button is also visible. A search bar with the placeholder 'start typing' and a 'SEARCH' button is present. Below the search bar is a table listing users with columns for NAME, EMAIL, PERMISSION, ACTUAL VEHICLE, and ACTUAL USAGE.

NAME	EMAIL	PERMISSION	ACTUAL VEHICLE	ACTUAL USAGE
Gór Imre		Driver		
Kiss Elemér		Driver		
Nagy Bence		Manager	LPE287	Private usage
Nagy Sotörke		Driver	AAA111	Posting
Teszt Elek		Driver		

2. If you want to expand your fleet - click on the +Subscribe button.

3. If you want to downsize your fleet, just click on the user you want to remove. By clicking on the edit icon, you can edit or delete the user's details.

Notifications

No more expired documents!

Our smart alerts warn you in advance:

- about an expiring driving licence
- vehicle inspection due date
- expiring motorway sticker
- oil change due date
- service due date

Don't forget to enter your details correctly, so that smart alerts can warn you!

Private and business use separation

Add new vehicle-web

1. Sign in to the urbanique (<https://app.urbanique.com/login.php>) with your chosen email and password
2. On the menu, on the left, click 'Vehicles'
3. Click '+' on the right side

4. On this screen, you can add your fleet's vehicles.

After filling all the details and clicking on the SAVE button, your first vehicle has already been saved!

Usage modes

You can choose from the following modes of use:

For company cars

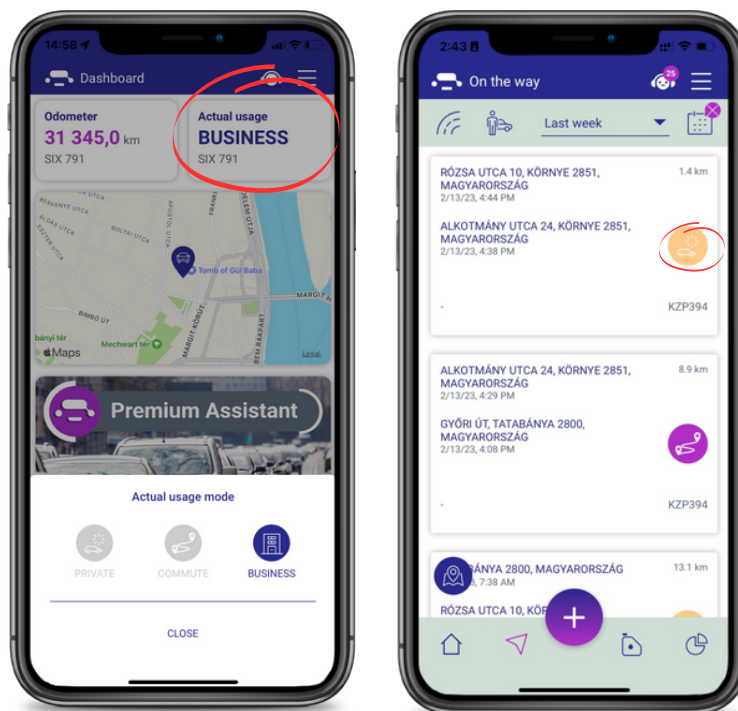

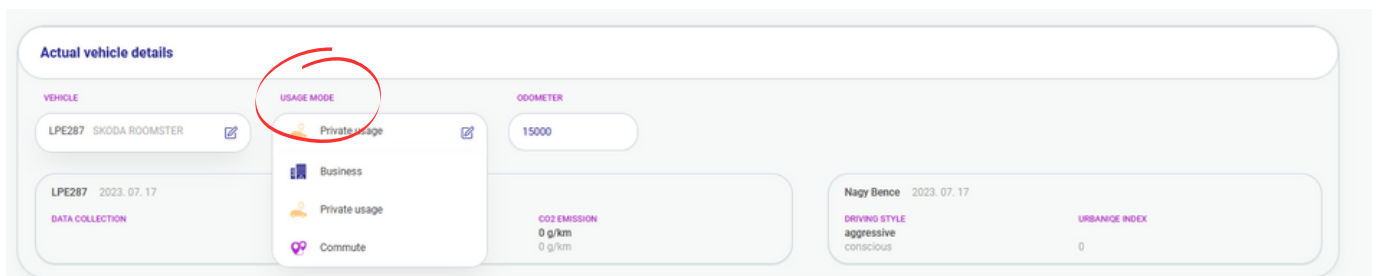

- private
- commute
- business

For private cars

- private
- commute
- posting

How can you change the usage mode?

Click on the 'Usage mode' at the top of the Control Panel.

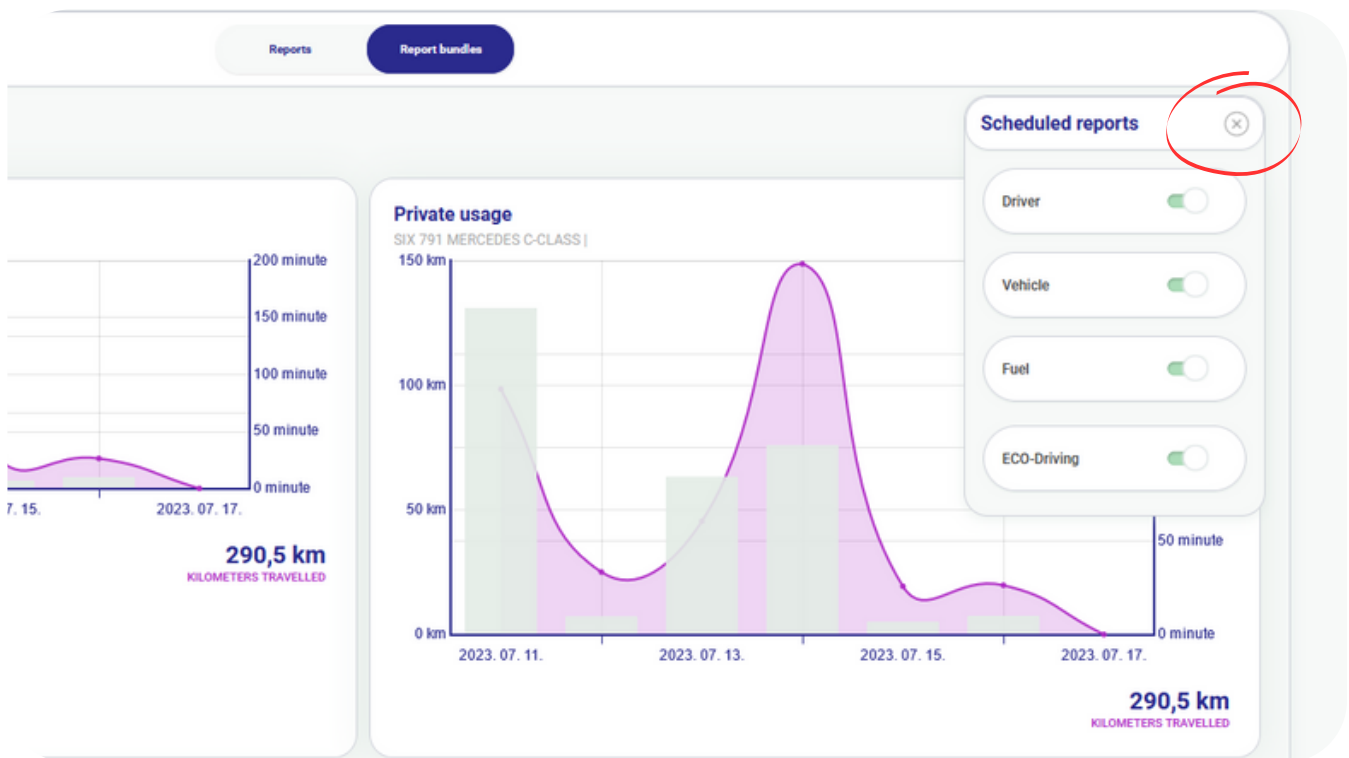

Usage mode- Reports

Want more information about your journeys?
Would you like to prepare an end-of-month statement?

Want to be informed every week about your fleet's activity?
Use our 'Reports' menu: click on the gear icon in the first picture and select which reports you would like to receive by email each week!

Looking for data on a specific report?
Click on any tile and send it to your own email address by clicking on the button in the second image!

Fleet tracking

Real-time view

As a fleet manager, do you have problems tracking drivers in real-time?
Do you want to know exactly where your vehicles are?

Try the 'Real-time view' submenu in the 'On the go' menu of our web interface!

Click on any car icon on the map to get more information!

- plate number
- type of vehicle
- driver
- last measured speed
- last location

Historical view

Do you want to track where your vehicle has been on a particular day, where it has stopped and how long it has been there?

This is exactly what we have developed the 'Historical view' of the 'On the Road' menu of our web interface for!

What information can you get by using this option?

- Who was driving the vehicle?
- From where and when did it depart?
- Where and when did it arrive?
- What was the distance traveled in kilometers and time?
- What was the mode of use of the vehicle?

Want to modify or delete routes?

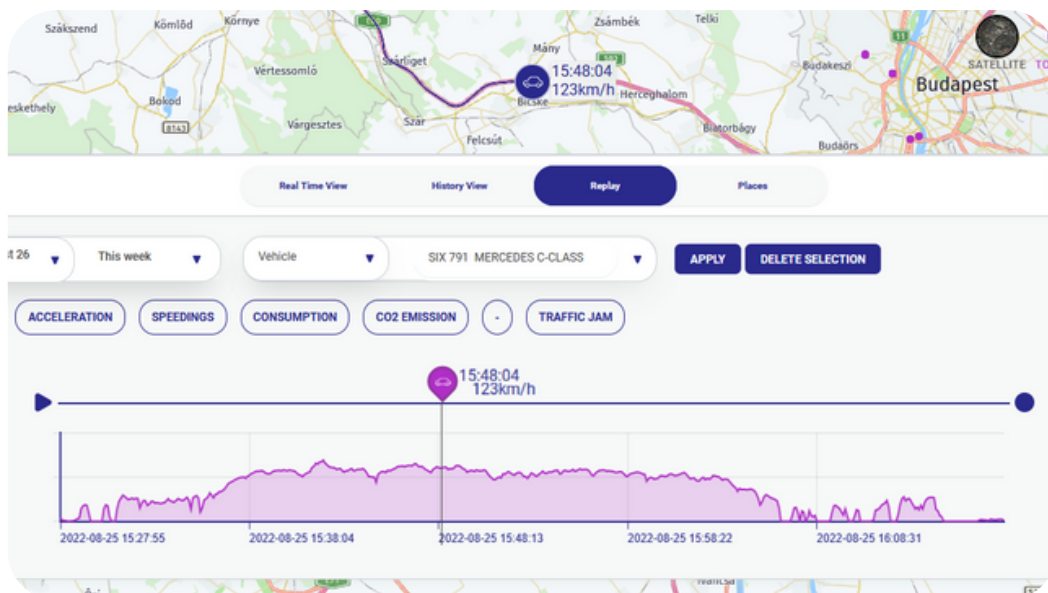

Select up to several routes and use the merge/split/delete functions!

Replay

Want to get a deeper insight into your fleet's operations?
 Want to optimise the operation of your fleet much better?

Using the 'Replay' menu in our web interface you can get accurate information about:

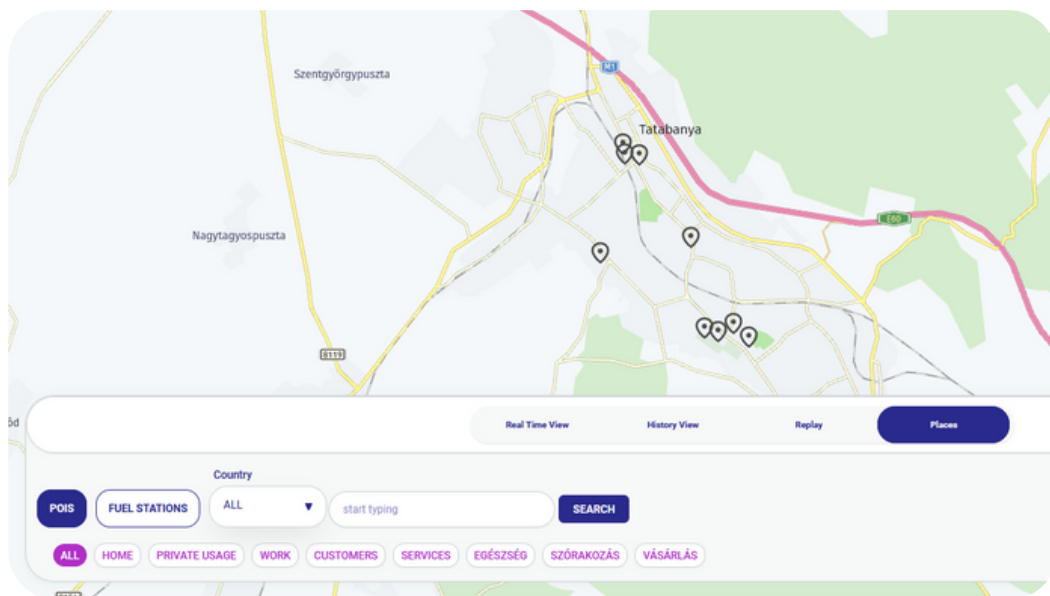

- exactly where was the vehicle?
- how fast was it traveling?
- did it stop at a particular point?
- to what extent was the vehicle accelerating?
- was the driver driving faster than the speed limit?
- what was the vehicle's consumption and CO2 emissions?
- how long was the car stuck in traffic?

POI

Do you have frequently visited places? Maybe you have regional representatives whose work you need to check?

Add a list of your customers as POIs in the Places submenu of the On the Road menu and check at any time whether your employees have actually visited the addresses and how much time they spent at that location!

Would you like to know how many times your colleagues have visited a particular client or how much time they spend there per month?

With our POI visits report, you can!

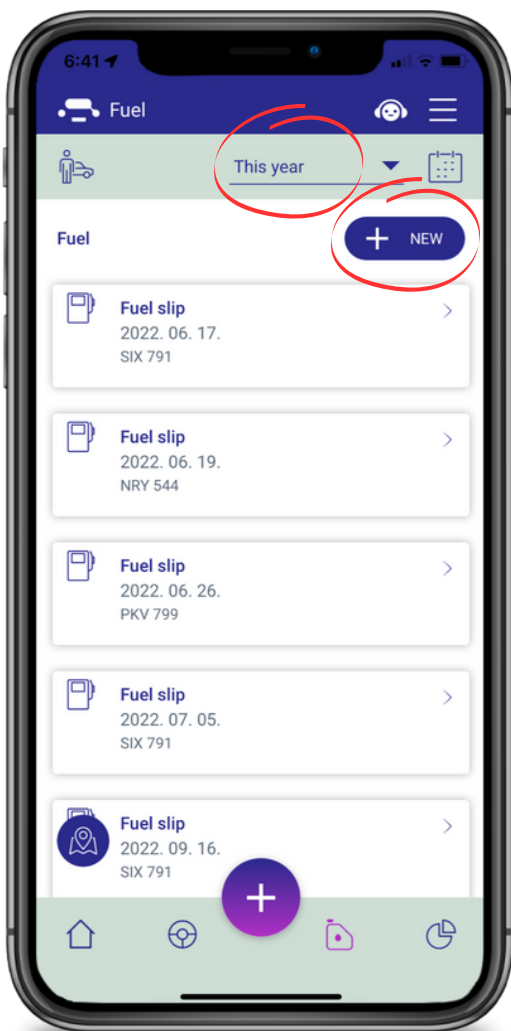

urbanIQ
better way

Fuel management

Add and list fuel slips

Are you also struggling with your end-of-month accounts? Can't keep track of who filled up your vehicles, when and how much? Want to see it all in one place?

With both our phone and web app, you can manage your refuelling in one place, let's see how:

You can record a refueling by clicking the + NEW button in the 'Fuel' menu of the mobile app.

After saving your fuel receipt, you can also see a summary view of your refueling.

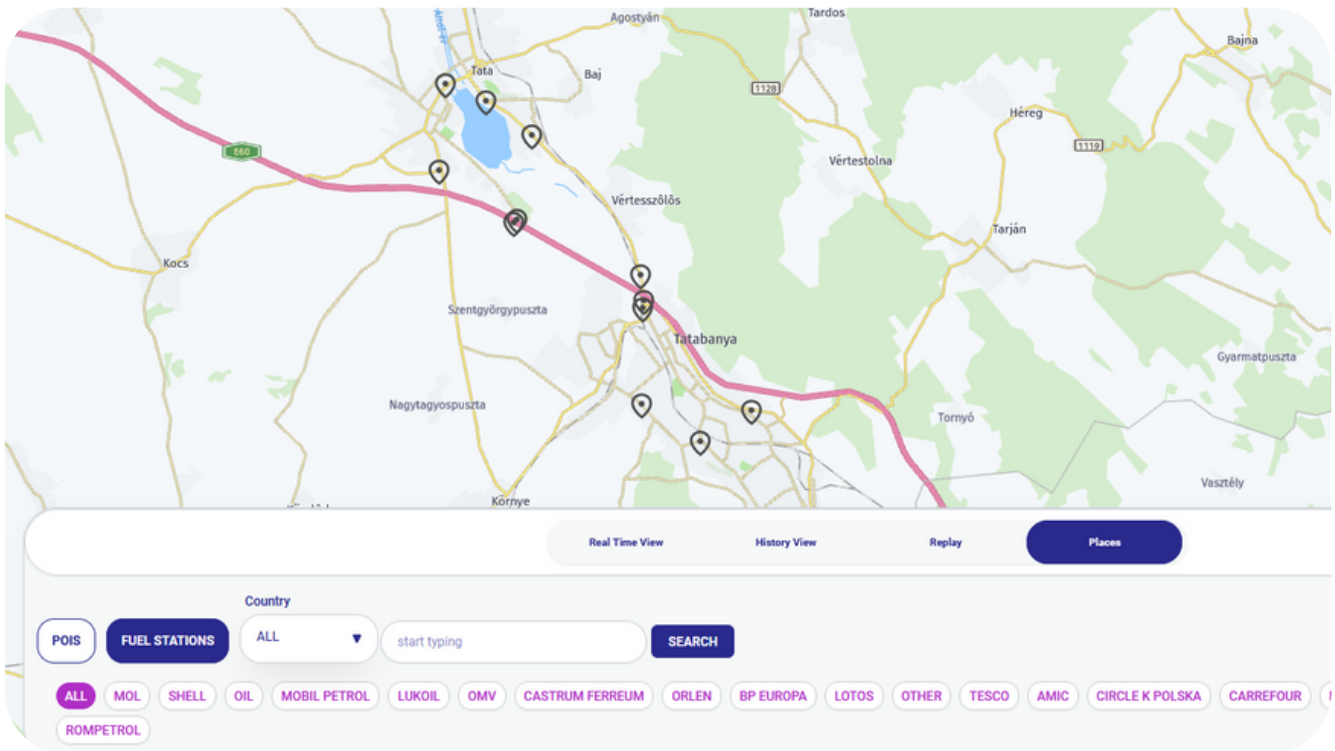

Want to see all this broken down by month or even year?

Just click on the period filter and set the period that suits you best!

Gas station finder

Are the vehicles in your fleet only allowed to refuel at a certain type of gas station? We've thought of that too: using the buttons below the search box, we give you the option to filter by gas station type.

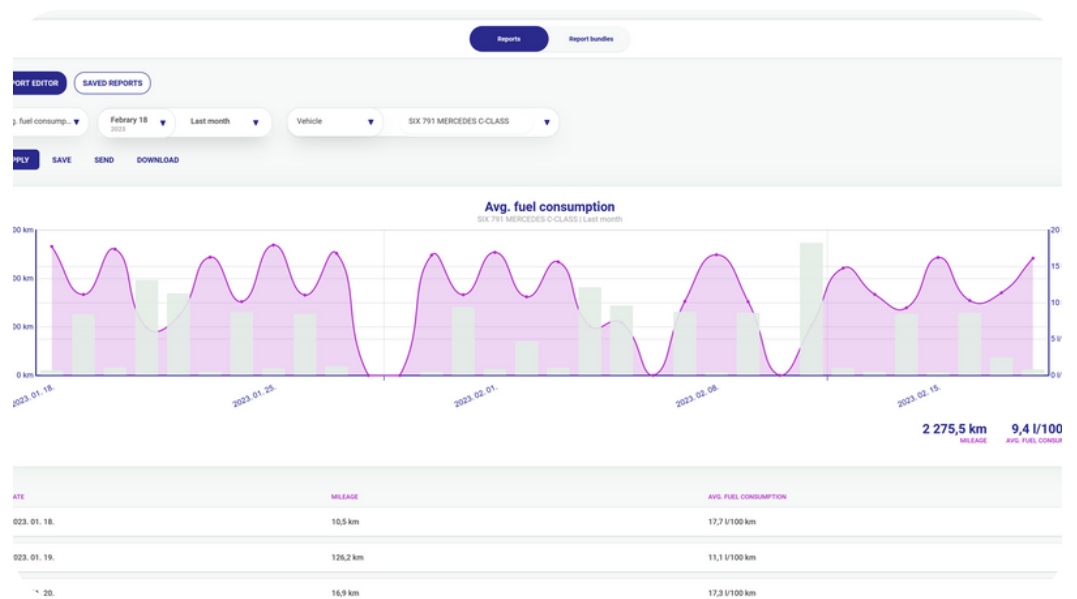

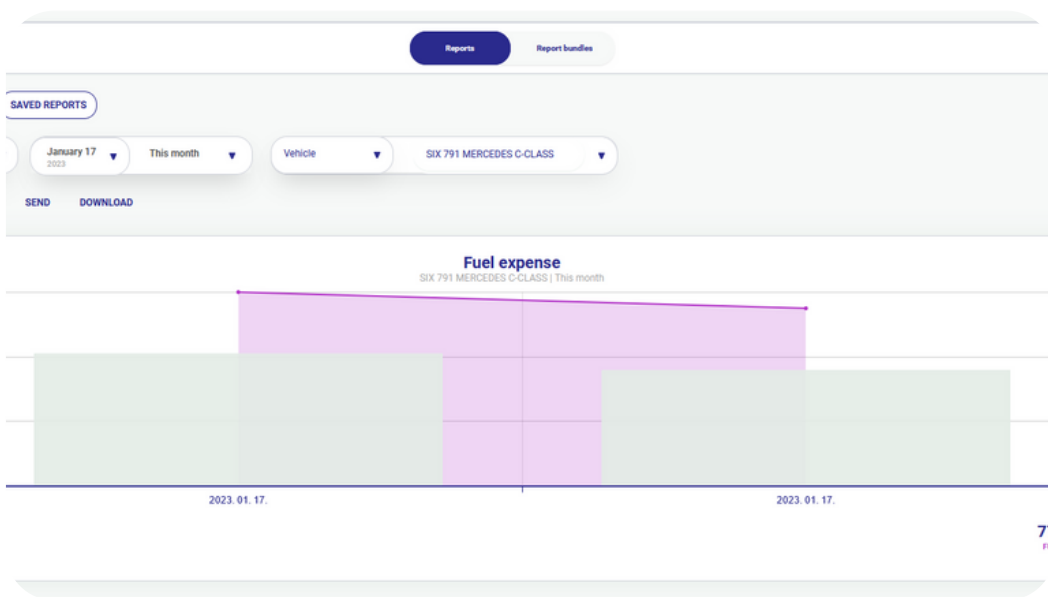

You can easily find the nearest gas station to you using the 'Fuel' menu in our app..

Reports

Now that you've found the gas stations, successfully filled up your car and logged it into our system, all you have to do is enjoy the convenience of our smart reports!

In the 'Reports' menu you can choose from 14 different queries!

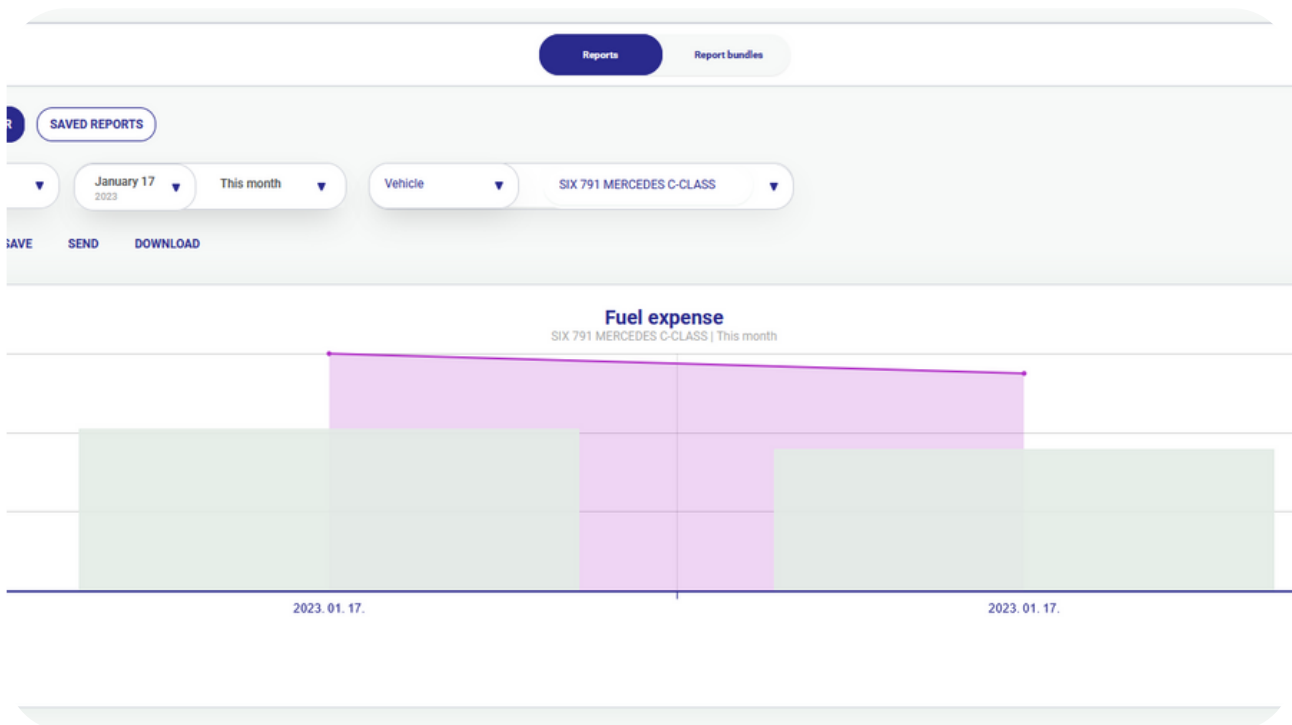

urbanIQ
better way

Reports

Types

In the 'Reports' menu you can choose from 14 different queries!

- Mileage
- Private use
- Business use
- Driving
- Commute
- Posting
- POI visits
- Speeding
- Fuel costs
- Average consumption
- CO2 emissions
- Traffic jams
- Driving style
- Urbanique index

Report bundles

Want a better overview of your fleet's reports?

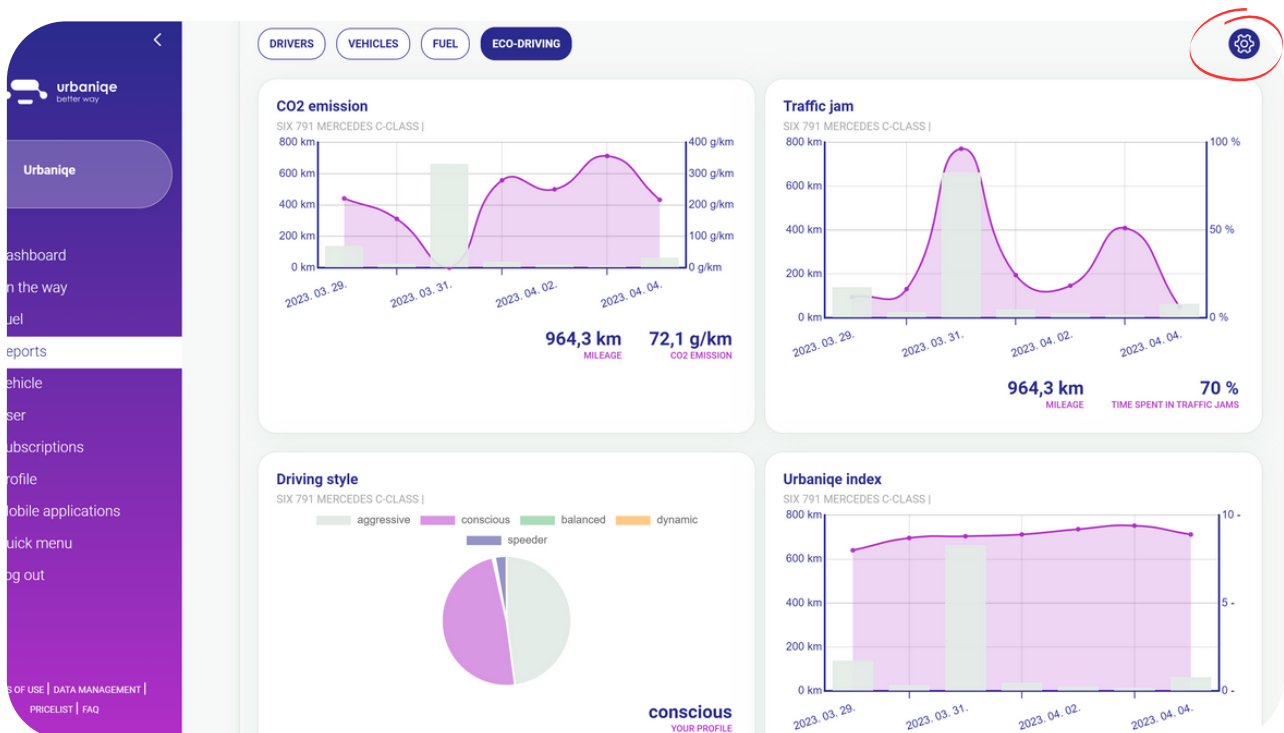

In the 'Report bundles' submenu:

- Drivers
- Vehicles
- Fuel
- Eco consciousness

blocks help you manage your reports more easily.

Would you like to receive all this in a weekly report by email?

Just click on the gear icon and select the report bundles you find useful!

Subscriptions and billing data management

Change billing and delivery details

You can edit your billing details in the 'Subscriptions' menu on the left.

Want to change the number of subscriptions you have purchased?

You can do this in the 'Subscriptions' submenu by clicking on the button in the image below.

Want to download the invoices for your subscriptions?

In the 'Transactions' submenu, you will find all the invoices for your previous purchases.

The screenshot displays the Urbanique user interface. On the left is a navigation menu with options: Dashboard, On the way, Fuel, Reports, Vehicle, User, Subscriptions (highlighted), Profile, Mobile applications, Quick menu, and Log out. The main content area is titled 'Subscriptions' and includes a 'Customer service' link. It is divided into three main sections: 'Subscriber', 'Subscription', and 'Transactions'. The 'Subscriber' section shows details for 'Toth Levente' from Hungary, including VAT NO. (N/A), delivery address, billing address, and phone number. The 'Subscription' section shows details for 'Mobility Assistant' with a 1-month payment frequency, 3 subscriptions, and a total price of 5,070 HUF. The 'Transactions' section is a table with columns for Type of Transaction, Pieces, Total, Date, Payment, and Billing. It lists two transactions: one for 'Change subscription' with 2 pieces on 2023-06-20 10:18:16, and another for 'Change subscription' with 1 piece on 2023-05-26 13:16:44. The first transaction has a 'PAYMENT' button, and the second has 'SUCCESSFUL' and 'IN PROGRESS' status indicators.

NAME OF SUBSCRIBER	VAT NO.	COUNTRY OF ORIGIN
Toth Levente	N/A	Hungary

DELIVERY ADDRESS	BILLING ADDRESS	PHONE NUMBER
mail null Hungary 1023, BUDAPEST Turbin utca 11-13	Hungary Toth Levente 2800, TATABÁNYA FG Nr 10	+36204444000

TYPE	PAYMENT FREQUENCY	RENEWAL DATE
Mobility Assistant	1 Month	2024. 01. 01.

NUMBER OF SUBSCRIPTIONS	SUBSCRIPTION PRICE	TOTAL SUBSCRIPTION PRICE
3	1 690 HUF	5 070 HUF

TYPE OF TRANSACTION	PIECES	TOTAL	DATE	PAYMENT	BILLING
Change subscription	2 pieces	3 980 HUF	2023-06-20 10:18:16	PAYMENT	
Change subscription	1 pieces	1 990 HUF	2023-05-26 13:16:44	SUCCESSFUL	IN PROGRESS

Decarbonization

What is decarbonization?

Today, decarbonization is one of humanity's most important missions.

But what do we mean by this?

Reducing carbon emissions in the short and long term, total carbon neutrality. One of the main reasons for climate change is the greenhouse effect, caused by harmful gases in the atmosphere.

Pollution caused by mankind has reached a level that our planet's natural absorption capacity can no longer handle. This is why artificial human intervention is needed: decarbonization.

More and more weather events such as forest fires, floods, and hurricanes put human life at risk. Most of these are caused by global warming.

But what can we do about them?

The only way to reverse them is to create a much more sustainable, greener, healthier world. We know that in some companies, the use of vehicles is essential to complete the work process. We also know that vehicles emit CO₂. But we also recognize that we have the opportunity to capture CO₂ emissions by buying carbon credits.

Carbon Credits

How can you do your part as a business owner for our planet?

With urbanique, you can support projects that significantly reduce global greenhouse gas emissions by using certified renewable energy sources instead of fossil fuels or by working towards clean energy production.

What exactly does this mean?

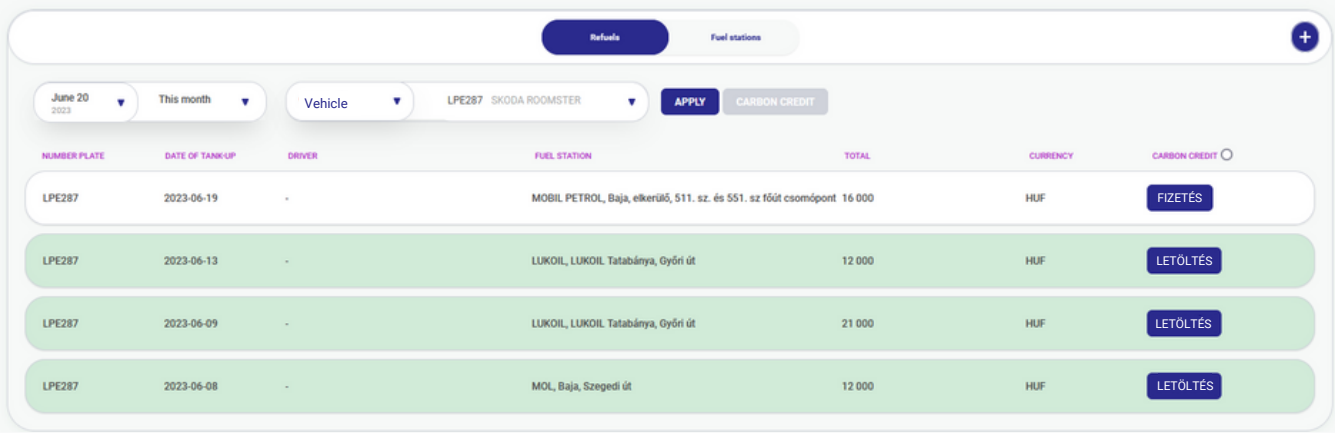

You can support projects that have already been completed and have promoted the use of solar energy, wind turbines or hydroelectric power. By using these renewable energies, the Earth's fossil energy demand is reduced, which means less greenhouse gases are released into the atmosphere.

Purchase of carbon credit

What do you need to do?

1. Record your fuel receipts in our app!
2. Select which of your refuelings you would like to decarbonise!
 - a. The app calculates your future CO2 emissions from your fuel data

The screenshot shows the 'Refuels' section of the Urbanique app. At the top, there are tabs for 'Refuels' and 'Fuel stations'. Below this, there are filters for the date (June 20, 2023), the month (This month), the vehicle (LPE287 SKODA ROOMSTER), and an 'APPLY' button. A 'CARBON CREDIT' button is also visible. The main content is a table of fuel receipts with columns for Number Plate, Date of Tank-Up, Driver, Fuel Station, Total, Currency, and Carbon Credit. Each row has a corresponding button: 'FIZETÉS' for the first row and 'LETÖLTÉS' for the others.

NUMBER PLATE	DATE OF TANK-UP	DRIVER	FUEL STATION	TOTAL	CURRENCY	CARBON CREDIT
LPE287	2023-06-19	-	MOBIL PETROL, Baja, elkerülő, 511. sz. és 551. sz főút csomópont	16 000	HUF	FIZETÉS
LPE287	2023-06-13	-	LUKOIL, LUKOIL Tatabánya, Győri út	12 000	HUF	LETÖLTÉS
LPE287	2023-06-09	-	LUKOIL, LUKOIL Tatabánya, Győri út	21 000	HUF	LETÖLTÉS
LPE287	2023-06-08	-	MOL, Baja, Szegedi út	12 000	HUF	LETÖLTÉS

3. Redeem your CO2 emissions for carbon credits!
4. Download your carbon credit certificate!

Advantages of carbon credits

What benefits can you get?

- You can build a green brand
- Meet ESG challenges in an auditable way
- You can demonstrate "green" compliance to your customers
- You can contribute to a good cause
